

Curriculum Vitae

Antonio Mascia

Personal Information:

Born on 28th April 1953 in Italy
Nationality: Belgian
Married since 1977
One daughter born in 1978

Since April 1989, Managing Director of the MAS1 Company (sold on 2014)

- Expertise, Consultancy and training for Industrial Computing, Control and Automation

Since April 1992, Managing Director of the Euro View Services S.A. company (see herewith the company's information.)

- Industrial expertise
- Maintenance expertise

Since January 2010, Professor of electricity at secondary school UTPP Charleroi

Specialties:

- ◆ Conceptual analyses and PLC (PLC's - SCADA).
- ◆ Studies and realization.
- ◆ Projects, site and start-up follow-up.
- ◆ Industrial communication protocols (Field busses).
- ◆ Software analyses & development

Languages knowledge:

- ◆ French
- ◆ Italian (mother tongue): understood and spoken
- ◆ Spanish (learnt in PERU) : I can understand and speak rather good
- ◆ English (Secondary studies 3 years): I can understand and speak rather good
- ◆ Dutch: knowledge (oral training) : I can understand and speak rather good

Studies:

Technical: trained as Electro mechanical at "Université du Travail Paul Pastur" of Charleroi, qualified in 1974.

Special Interest:

Socio economy - politics - general philosophy (humanism - realism) - cultural information.

Passion: new technologies, innovations and research.

I like the human contacts and also teaching my knowledge.

Curriculum Vitae

Antonio Mascia

Experiences :

Complete responsibilities for projects at different levels of realization (Studies - Integration - commissioning). Analyses – Drawings - Schemas - Automation programming - Tests of implementation.

Kind of activities:

- ◆ Electricity BT-MT-HT (all fields)
- ◆ Electrical engineering - Instrumentation – Process control
- ◆ Programmable Logical Controller (PLC)
- ◆ Communication networks
- ◆ SCADA (Process control)
- ◆ Maintenance
- ◆ Technical management
- ◆ PC world - Dos - Windows 3.x/95/98/NT

1974 : Company : Putman Frères (Brussels).
Function: Field Electrician.
General Electricity in Building.

1975: Company: Traction & Electricity (Tractebel nowadays - Brussels).

Function: Study drawer

Safety function studies for the posts with high voltage of the 70 Kvolts networks (management of chief posts, lines, posts, counting, telecontrol...).

1978: Company: Snacken sprl (Brussels)

Function: Responsible of the engineering office (4 to 8 drawers)

Study and realization of the drawing and schemas of electrical boards in the sector of the heating, air conditioning and general electricity especially for public buildings.

1980: Company: Sapiel (Brussels) - (closed since 1982)

Function: Responsible of the engineering office

Study and realization of drawing and automation schemas + realization and commissioning of the PLC program TSX 80 of Télémecanique.

- ◆ Iron and Steel industry USINOR BOEL in La Louvière (Belgium)
- ◆ In PERU : Zinc refinery (MINEROPERU)
- ◆ Iron and Steel industry VALFIL of USINOR COCKERILL SAMBRE in Liège (Belgium).

Curriculum Vitae

Antonio Mascia

1982: Company: ABAY S.A. in the automation department. Now it's become ABSY S.A. (Brussels)

Function: Responsible of the engineering office

Study and realization of drawing and automation schemas + realization and programs commissioning of the CRYSTAL systems of Absy s.a. (SNCC with Motorola 68.000).

- ◆ Iron and Steel industry CARLAM of USINOR COCKERILL SAMBRE in Charleroi.
- ◆ Iron and Steel industry USINOR COCKERILL SAMBRE : power station in Seraing.
- ◆ Chemical industry of AKZO in Ghlin
- ◆ Power stations INTERCOM (ELECTRABEL)

In nuclear power station of TIHANGE 3 , the ALOST station, the BRESSOUX power station, the ZWEVEGEM power station, the BRESSOUX power station, in England : Soap powder industry (Procter & Gamble), at the ACEC in Charleroi.

1989: Company: CIMTECH (become ASPENTECH) in Nivelles.

Function: Responsible of the engineering office

Study and realization of plans and automatism schemas + realization and systems program commissioning (PLC and Scada).

- USINOR FAFER in Charleroi, LATEXCO in TIELT, ATLAS COPCO in Antwerpen, Brewing in HOLLAND , AEROSPATIALE in Bourges (France), dyeing BUREL in WATTRELOS (Roubais France), VERAMTEX (Vilvoorde).

October 1991:

According to my experience and my personal motivation to create my own society, I choose the self-employed status.

April 1992, Managing director of the company Euro View Services S.A. activate in industrial data processing and especially:

- Editor of the C.M.M.S software (help as maintenance) Visual Maint™
- Official Distributor in the Benelux countries and the Maghreb of industrial products.

Curriculum Vitae

Antonio Mascia

Other :

- Expert in maintenance in the University of Valenciennes and for technological exchange with Tunisie and Maroc (training, council, conferences...);
- Euro View Services is selected by ANVAR (Innovation French Agency) on the site; Report by e-Television (filial of Canal+ France);
- Radio Wallonie, Trends Tendances, Maintenance Magazine...;
- Selected by EBN (CEE) help on innovating SME.
- Selected at the Expert Round Table of the maintenance at the Fucam (Mons);
- Collaboration with the University of Liège, of Valenciennes, of Polytech in Mons, ...;
- Participation in the committee of expertise for the project "Telemaintenance" at the CEMI (Centre d'Excellence en Maintenance Industrielle in Gosselies); partner of the center of Technifutur in Liege for the process control, industrial network and Maintenance.
- Jury in various technical school of engineer and school of graduate (ISIL, ISIC, ISIM, ECAM, IRAM...), Universities (POLYTECH Mons, FUCAM, FUNP, ULG), industrial jury, jury with the FOREM and ELECTROPHY at the CEMI.
- Trainer in special GIP (Integrate Production Management) at the HEC / GRAMME in Liège
- Journalist and lecturers in the industrial fields.

Expertise agreement by ABEX (Association Belge des Experts)
Member of the board of BEMAS : Belgian Maintenance Association
President of Belgium of Control and Automation Association (IBRA Hainaut)
